JAVA INTERVIEW

FRESHER

ROADMAP

2025

STEP 1: RESUME PREPARATION

Resume Preparation

- Fresher Resume Guide: Learn to craft an ATS-friendly resume.
- Experienced Resume Templates: Tailored templates for 1–2 years of experience.

Resume Tips

- Highlight projects and internships.
- Focus on Java-specific skills and achievements.
- Avoid irrelevant information.

STEP 2: ONLINE ASSESSMENT PREPARATION

Tips & Tricks to Excel:

- Time management strategies for assessments.
- Practice problem-solving under timed conditions.

Best Platforms:

- HackerRank, LeetCode, GeeksforGeeks:
- Practice frequently asked coding questions.
- Follow `java_tech_community` for recent company interviews questions.

STEP 3: CODING ROUND ESSENTIALS

Prepare for technical rounds with these topics:

- **Strings & Arrays:** Frequently asked algorithmic problems.
- **Core Java Codes:** Practical and real-world examples.
- **SQL Queries:** Data manipulation and optimization queries.
- **Java 8 Features:** Lambdas, Streams, and Functional Interfaces.
- **Collections Framework:** HashMap, ArrayList, LinkedHashSet, and their internal workings.

STEP 4: CORE JAVA ESSENTIALS

Master the following Java fundamentals:

- OOPS Concepts: Abstraction, Inheritance, Polymorphism, and Encapsulation.
- Java Architecture: JVM, JRE, and JDK.
- Exception Handling: Differences between checked and unchecked exceptions.
- Threads and Concurrency: Thread lifecycle, synchronization, and Concurrent Collections.
- Memory Management: Garbage Collection and optimization techniques.
- Basic Design Patterns: Singleton, Factory, and Observer patterns.

STEP 5: FRAMEWORK FUNDAMENTALS

Spring & Spring Boot:

- **Dependency Injection (DI) and Inversion of Control (IOC).**
- **REST API development and Microservices basics.**

Hibernate

- **ORM Fundamentals, Lazy and Eager Loading.**

STEP 6: FRONT-END DEVELOPMENT (OPTIONAL)

Complement your backend knowledge with these essentials:

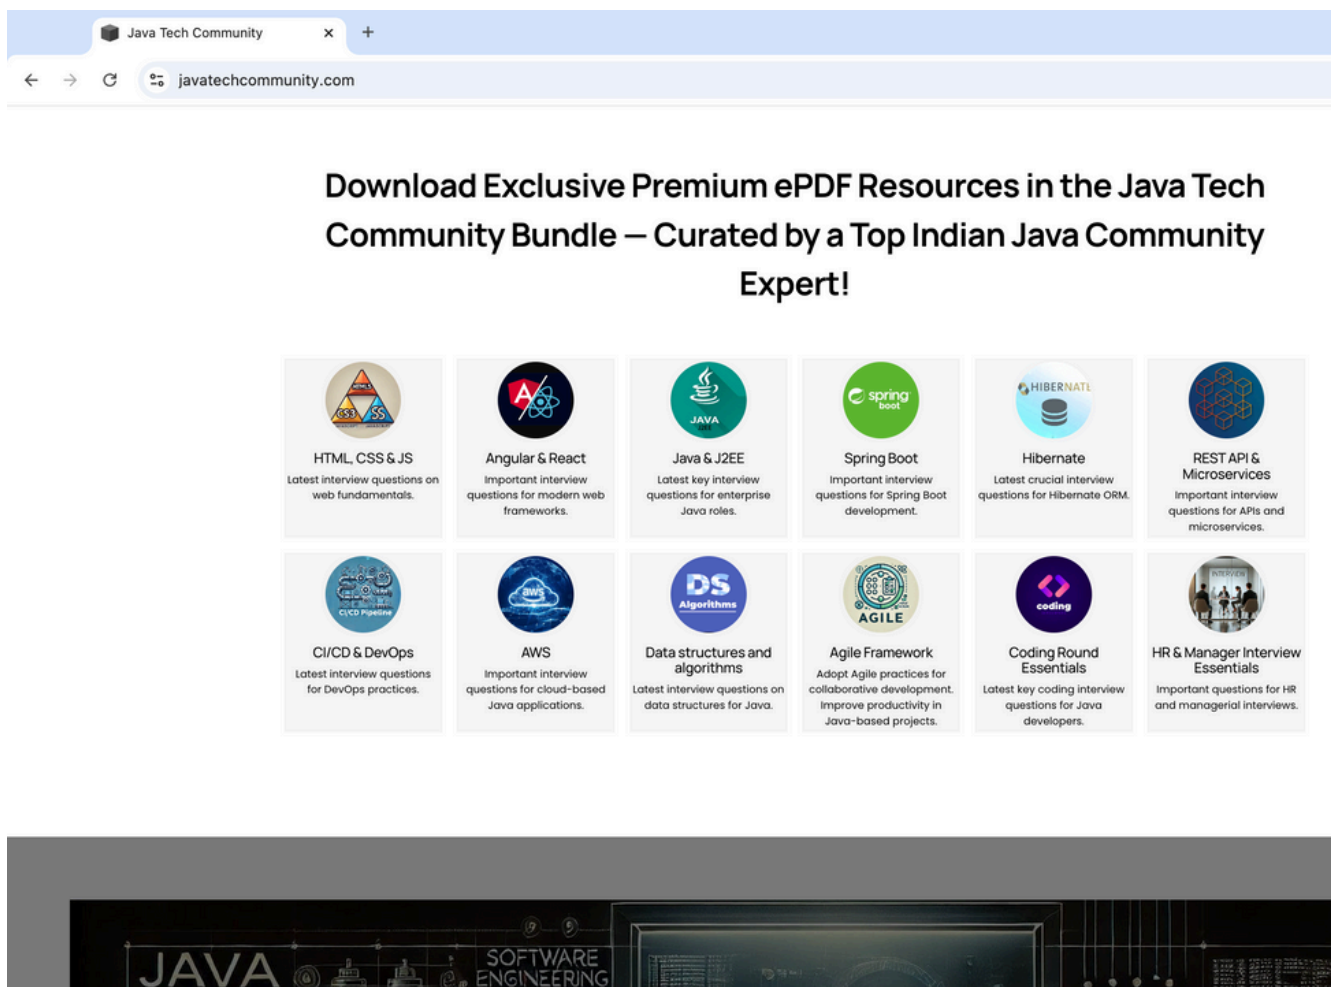

- **HTML:** Structure of web pages, forms, and validation.
- **CSS:** Styling basics, animations, and responsive design.
- **JavaScript:** DOM manipulation, ES6+ features, and basic frameworks like React or Angular.

STEP 7: HR & MANAGERIAL ROUND TIPS

- **Prepare a strong self-introduction.**
- **Behavioral questions and STAR technique.**
- **Communication and problem-solving scenarios.**

DO YOU WANT ACCESS TO ALL THESE Q&A IN ONE PLACE? ✨📚
