TOP 100 JAVA INTERVIEW QUESTIONS FRESHERS

Java Basics

1. Why is String immutable in Java?
2. Difference between String and StringBuffer in Java?
3. Can we override a static method in Java?
4. Is String thread-safe?
5. What is the String constant pool in Java?
6. How to prevent your class from being subclassed?
7. Which two methods are overridden by an Object and intended to be used as a key in HashMap?
8. Difference between List and Set in Java?
9. How do you make a class immutable in Java?
10. Difference between Hashtable and HashMap in Java?
11. How will you iterate a map?
12. What is type safety? How to use it?
13. Difference between ArrayList and LinkedList in Java?
14. Difference between checked and unchecked exceptions in Java?
15. How to convert an array to a list?

TOP 100 JAVA INTERVIEW QUESTIONS FRESHERS

OOPs Concepts

16. Difference between Serializable and Externalizable interfaces in Java?
17. Explain the Singleton Design Pattern. Write a Java class for it.
18. Difference between local and instance variables.
19. What is serialization?
20. Difference between `==` and `.equals()` in Java?
21. Difference between unique key and primary key?
22. Difference between method overriding and method overloading in Java?
23. What are the types of access specifiers?
24. Explain the use of `this` keyword?
25. Explain the exception hierarchy in Java?
26. What is an index and view in a database?
27. Difference between extending Thread class and implementing Runnable interface?
28. How can we avoid NullPointerException?
29. Explain OOPS concepts in Java.
30. Difference between Abstraction and Encapsulation. How do you use them in your project?

TOP 100 JAVA INTERVIEW QUESTIONS FRESHERS

Advanced OOPs & Exception Handling

31. When to use an abstract class and interface in Java?
32. Difference between abstract class and interface?
33. Difference between Exception and Errors?
34. Difference between throw, throws, and finally?
35. What is a Class?
36. What is an Object?
37. Difference between Class and Object?
38. What is method overloading?
39. What is method overriding?
40. What is a Thread?
41. What is File Handling in Java?
42. Purpose of static methods and static variables?
43. Difference between continue and break?
44. What is the final keyword in Java?
45. What is JIT Compiler?

TOP 100 JAVA INTERVIEW QUESTIONS FRESHERS

🔥 Memory Management & Java Features

46. What is WORA (Write Once, Run Anywhere) in Java?
47. Purpose of the default constructor?
48. What is a ClassLoader in Java?
49. What is Inheritance?
50. What is Object Cloning?
51. What is Static and Dynamic Binding?
52. What is an Interface?
53. What is Exception Handling in Java?
54. Can finally block be used without catch?
55. What is Garbage Collection?
56. Difference between Array and Vector?
57. Why doesn't Java have destructors like C++?
58. What is JDK, JRE, and JVM?
59. Why is `char[]` preferred for storing passwords instead of Strings?
60. How many objects are created in JVM when a String type variable is assigned using `new`?
