TOP JAVA INTERVIEW QUESTIONS EXPERIENCED

1. Which version of Java are you using?
2. How to create a thread-safe Singleton class in Java using double-checked locking?
3. Why is multiple inheritance not supported in Java?
4. Can you override a static method in Java?
5. Why does Java not support operator overloading?
6. Why is String immutable in Java?
7. Is String thread-safe in Java?
8. What is StringTokenizer?
9. What is the String constant pool in Java?
10. Write a program to reverse a string.
11. What are different ways to create a String object?
12. How to concatenate multiple Strings efficiently in Java?
13. Why is a `char[]` preferred over `String` to store passwords?
14. What is the difference between `StringBuilder` and `StringBuffer`?
15. What happens if your `Serializable` class contains a non-serializable member? How do you fix it?

TOP JAVA INTERVIEW QUESTIONS EXPERIENCED

16. What are the new features introduced in Java 8?
17. What is a Lambda expression in Java 8?
18. What is Metaspace in Java 8?
19. What is the use of Functional Interfaces in Java 8?
20. When should you use Parallel Streams in Java 8?
21. Have you used Parallel Streams?
22. How does a Lambda expression relate to Functional Interfaces?
23. What are the three terminal operators used in Java Streams?
24. What are the other features of Java 8 you have used in real projects?
25. How do you iterate and remove elements from an ArrayList simultaneously?
26. What was the Log4j vulnerability, and how do you fix it?
27. How does HashMap work internally?
28. What is a ConcurrentHashMap?
29. What is a WeakHashMap?
30. How does the load factor work in HashMap?

TOP JAVA INTERVIEW QUESTIONS EXPERIENCED

31. Difference between HashMap and Hashtable?
32. What will happen if we put a duplicate key in HashMap?
33. Difference between Stack and Queue?
34. What is a BlockingQueue, and how does it work?
35. Difference between HashMap and ConcurrentHashMap?
36. What is a FailFast Iterator vs a FailSafe Iterator?
37. Explain how put () works internally in HashMap.
38. What is the difference between Arrays.asList() and a new ArrayList<>()?
39. Which is faster, LinkedList or ArrayList?
40. In which case would you prefer LinkedList over ArrayList?
41. What is a TreeSet in Java?
42. How does API Gateway work in Microservices architecture?
43. What is the use of the super keyword in Java?
44. Difference between throw, throws, and finally in exception handling?
45. What is Synchronization in Java?

TOP JAVA INTERVIEW QUESTIONS EXPERIENCED

Spring Boot & Hibernate

46. What is a Functional Interface?
47. Explain some commonly used Functional Interfaces in Java.
48. How to make a class thread-safe?
49. What is the Eureka Server in Microservices?
50. How to create a custom exception in Java?
51. What HTTP response codes are 415 & 504?
52. How do you remove the NOT NULL constraint from a column?
53. What is JWT Authentication?
54. What is the difference between Aggregation and Composition?
55. What is Fault Tolerance in Microservices?
56. What is the difference between ClassNotFoundException and NoClassDefFoundError?
57. What is the difference between Entity Object and Value Object?
58. Explain One-to-One Mapping in JPA and Hibernate.
59. What is the purpose of @Repository, @Service, and @Component annotations?
60. What is Lazy Loading in Hibernate?

TOP JAVA INTERVIEW QUESTIONS EXPERIENCED

Advanced Java & Design Patterns

61. What is the purpose of `final` variables? Can we assign them later?
62. How are Java objects stored in memory?
63. Given a list of mobile numbers, how do you filter out numbers starting with +91?
64. What is a Predicate in terms of Functional Interfaces?
65. Explain the Builder Design Pattern.
66. How is security managed in your application?
67. What is JWT 2.0, and how does a JWT token work?
68. Advantages of Hibernate over JDBC?
69. What is a Hibernate Session, and is it thread-safe?
70. What happens if an exception is thrown in a superclass method?
71. What is garbage collection in Java?
72. How do you implement a Singleton Pattern in a multi-threaded environment?
73. Why do you need to store passwords securely? Which data type should you use?
74. What is the Factory Pattern vs Abstract Factory Pattern?
75. What is the difference between `sleep()` and `wait()`?
